We leased a new printer for our small nonprofit. We found that the sales representative (Brian Tiller) was knowledgeable, he listened to our concerns, and he designed a plan that fit our budget. Ironically, our old printer broke the same day we called Logan Business Machines. Brian was kind enough to bring out a lender the same day.

We were conserving buying or leasing. We were pleasantly surprised by the affordable options of a new printer. Brian made the transition seamless.

On the day of the installation, the technician, Nicholas, was on time, very courteous, and professional. He knew what he was doing, and an initial walk-through, we were ready to print. When the installation was completed, Nicolas gave our staff demonstrations of all the neat functions. We were pleasantly surprised by the ease of the using the new printer.

As a nonprofit, we truly appreciate building new relationships and we developed a great partnership with Logan Business Machines. We appreciate their attention to detail and the high quality service we received. We would highly recommend to anyone that Logan Business Machines is a great place for your printer needs.
