Brian Tiller
Logan Business Machines

Dear Brian,

Stephens Real Estate is pleased to give Logan Business Machines a positive recommendation.

Logan was prompt and professional with our new copier installation and training. Our real estate business involves over 40 agents with differing levels of knowledge when it comes to technology. The Logan team patiently spent time – on the day of installation – training our agents on the new equipment. They also made a follow-up visit the next week and have been easy to reach by phone to answer any questions.

We decided to use a PIN# system for our copiers – something new and different. Logan's service department has responded quickly when we've needed support, and we've appreciated their calm approach to solving problems.

Making changes and learning new things is not always an easy thing. The Logan team helped make our new experience a pleasant one.

Sincerely,

Pat McCandless
Stephens Real Estate
